

Production Manager

Job Description ~

Rayotek seeks a highly organized, experienced, self-directed candidate to manage our custom manufacturing production; flow, employees and efficiencies. This position also has oversight of other shop floor departments, such as: shipping/receiving, scheduling/planning/MRP and inventory control. In this position you will be a critical part of our team by ensuring our production floor is running at its most optimized capacity.

If you love the diversity of working in the dynamic environment of a high-tech engineering and custom manufacturing facility this is a great position for you.

In a typical week you will be ~

- Providing leadership that motivates, encourages and teaches
- Managing all aspects of a busy production floor to achieve safety, quality and production goals
- Interfacing with scheduling, MRP and Engineering to keep jobs moving forward in the most optimized ways
- Attending important meetings such as job kick-off meetings and strategic planning meetings
- Leading weekly production meetings
- Tracking and analyzing production floor metrics to monitor production and create improvements

Required Skills/Qualifications ~

- Minimum of 10 years in manufacturing, leading production teams, including: technician job assignments, personnel management, employee cross-training, hiring, terminations, reviews and conflict resolution
- 4-year college degree minimum
- Ability to read and understand engineering drawings and blueprints
- Job flow management, production efficiencies and job time tracking
- Strong track record of consistent on-time delivery
- Hands-on manufacturing shop floor experience
- Highly organized, with strong attention to detail
- Able to work independently with minimal supervision
- Strong communication skills
- Experience in an ISO 9001 or AS 9100 environment

Preferred Skills/Qualifications ~

- Six Sigma Certification
- Lean Manufacturing
- Engineering Degree
- Manufacturing experience with glass or metals
- Understanding and/or experience in quality control

Benefits ~

Full medical, visual and dental and 401-k

Company Information ~

Rayotek Scientific, Inc., a San Diego based company, was founded in 1992 and has evolved into a multi-national corporation with extensive expertise in the engineering and fabrication of glass, sapphire, ceramic, metals and refractory products in high stress environments. Rayotek is located by the Torrey Pines State Reserve between La Jolla and Del Mar. Rayotek operates in a 30,000sq-ft state-of-the-art facility.

Rayotek has experienced a steady increase in business through industrial, aerospace and research industries and will continue to add professional staff to keep pace with growth.
